Description

Diversity training is an important step to help reduce the risk of workplace discrimination and harassment claims. This program raises awareness of the value of collaborating with people of different cultures, races, genders, ethnicities, beliefs, experiences and ideas.

Employees who better understand diversity concepts will be able to:

- Effectively interact with people of different backgrounds and cultures
- Recognize unconscious bias and racial discrimination (hidden attitudes based on social stereotypes)
- Develop inclusive thinking and inclusive actions
- Create workplace sensitivity to foster better teamwork and decision making.

Please note, all registrants will be billed for sessions, including no shows. If you are unable to attend or have any questions please contact Sandy Caudill with any questions, scaudill@mvrma.com.
